

Prosthodontics is one of the nine dental specialties recognized by the American Dental Association (ADA).

Prosthodontists are dental specialists in the restoration and replacement of teeth.

A Prosthodontist, serving as the “architect”, collaborates with general dentists, specialists, and other health professionals to develop solutions to dental and oral health concerns.

*beyond dentistry*

We are conveniently located off the Brownsboro Road exit off I-264 (exit #22).

One block north of I-264 turn onto Brownsboro Road (Hwy 22). Our office is located across the street from Holiday Manor Shopping Center; next door to McDonald's in the Rodes Department Store Building. Enter through the doors under the black awning and proceed to suite 205.
